

## MSF Program Curriculum

MBA-502	Quantitative Methods*
MSF-501	Financial Markets & Institutions
MSF-505	Managerial Finance
MSF-510	Investment Management
MSF-535	Financial Economics
MSF-540	International Finance
MSF-545	Financial Modeling
MSF-550	Financial Derivatives
MSF-555	Investment Theory & Analysis
MSF-600	Finance Capstone

Admission Requirements: Undergraduate degree with a minimum GPA of 2.7 (B-), a current resume, and a Letter of Application stating why the individual wishes to join the MSF Program and its benefits in furthering the applicant’s career.

The following undergraduate degree majors are ideally suited:

- ✓ Finance
- ✓ Economics
- ✓ Engineering
- ✓ Accounting
- ✓ Science

Other degree majors may be considered—typically those with a minimum GPA of 3.0 (B). In this instance, the submission of undergraduate evidence of the successful completion of coursework in Statistics, Business Calculus, and/or Corporate Finance is required.

\* Due to the mathematical complexity found in the courses of the MSF Program, MBA-502 serves as a foundation course. Students are required to take this as either the first or second course in the program.
