Bio

Jennifer has worked in corporate management-level roles within accounting for 15 years, predominantly in professional service organizations within architecture, higher education, transportation and healthcare. Her experience is concentrated in organizational financial planning and budget preparation, auditing, financial statement preparation and tax processes. While a relatively new faculty member at NECB, she brings well over a decade of experience as part-time faculty with a several prominent Boston-area academic intuitions, with a strong focus on online design and delivery methods.
